

AVIVA

HALF MASK RESPIRATOR

PREMIUM PROTECTION

AVIVA

The new AVIVA half mask is the next step forward in half mask technology from Scott Safety. Innovative design elements such as a reflex face seal, an easy-to-use leak check mechanism and goggle 'pinch' have been integrated into the AVIVA half mask, with user comfort and protection in mind. A wide range of filter options makes AVIVA suitable for use in a variety of applications.

- **INNOVATIVE HYBRID REFLEX SEAL**

- Unique among half masks, AVIVA features a hybrid reflex seal around the chin area that flexes with wearer movement. This flexibility makes AVIVA more comfortable to wear and provides for a secure fit on the face, while still being easy to clean.

- **THE PERFECT FIT**

- Scientifically designed to fit a very high percentage of the global population in relation to different face shapes and sizes

- **EASY-TO-USE LEAK CHECK**

- A simple-to-use leak check device has been built into AVIVA, allowing users to feel confident that a proper fit has been achieved.

- **ENHANCED VOICE INTELLIGIBILITY**

- A specially designed voice panel delivers enhanced voice intelligibility, enabling the wearer to be clearly heard by those around.

- **WIDE RANGE OF FILTER OPTIONS**

- Versions of AVIVA half mask are available for use with the following filters:

- AVIVA²: Pro²Flex*/Pro² filters
- AVIVA40: Pro2000 filters
- AVIVA50: PF251

This wide filter range means AVIVA is suitable for use in a variety of applications enabling an easy upgrade path for existing users of Scott Safety halfmasks.

Please refer to AVIVA technical information for precise details on AVIVA/filter approval combinations.

*Pro²Flex: the new low profile filter, see separate information for this exciting new filter product from Scott Safety

- **READY TO GO PROTECTION**

- AVIVA is available in three sizes and a variety of packaging types including READY-PAK options for specific applications. For ultimate ease of storage and transportation, a plastic resealable "tub" is available for READY-PAK to ensure the AVIVA halfmask is always stored and transported correctly.

AVIVA²

Accepts Scott Pro²Flex
& Pro² filter range

AVIVA 40

Accepts Scott Pro2000
40mm filter range

AVIVA 50

Accepts Scott PF251
50mm particulate filter

Comfortable cradle-style head harness

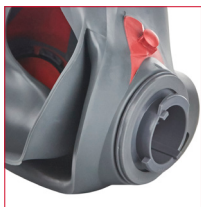

Simple rear fastening for easy donning & doffing

Goggle pinch - allows better integration with eyewear

Integrated voice panel, for enhanced voice intelligibility

Multiple filter options allow for usage in a variety of environments

Unique hybrid reflex seal, flexes on the face for increased comfort and fit

Downward facing exhale valve provides extremely low breathing resistance and avoids misting to eyewear

Positive fit check button - when pressed during exhaling, the mask inflates slightly showing a good fit has been achieved
