

RT3 Two Person Rescue Tripod

The RT3 has 6 anchor points tested to EN795. The 3 overhead pulleys hold up to 11mm rope. The extra swivel anchor points may be used with pulleys for a double roped rescuer, back-up system, airlines, communication lines, medical kits, tools etc.

For stability, the tripod legs may be individually adjusted.

Lanyards may be attached to the feet and pinned to the floor: anchor lines may be attached to the eye bolts on the tripod head.

The height of the tripod enables a casualty on a stretcher raised vertically to be lifted clear of the entrance.

The RT3 has detachable legs for portability and storage.

Product Code:
RT3

Conformance:
BS EN 795 TYPE B

Attachment Points:
3 Overhead Pulleys
3 Swivel Eyebolts

Safe Working Load:
250KG

Weight:
16kg

Service Interval:
12 months
