

SLIX100XL SLIX Bariatric Stretcher

A bariatric stretcher designed for the transport and evacuation of clinically obese persons.

A robust, compact and lightweight stretcher. The flexible material combined to a smooth finish allows easy sliding and permits the stretcher to be rolled to facilitate transport. No webbing passes under the stretcher preventing damage whilst dragging. Strong handles around the stretcher allow it to be maneuvered by several rescuers. The stretcher may be hauled vertically or horizontally. The lifting strops secure and allow the stretcher to mould around the casualty. Extensions are provided to widen the stretcher when required.

Product Code:
SLIX100XL

Conformance:
CE 93/42/EEC CLASS 1

Max Recommended User Weight:
400KG

Width - 1220mm
Extensions - 200mm each
