

## TC-512 Thermal Cycler

Industry Leading Warranty...

4 years or 80,000 cycles

Barloworld Scientific

# TECHNE

# TC512 Thermal Cycler

The **TC-512** has a graphical Touch Screen display which enables you to optimize your experiments at the **"touch of a screen."**

#### Wide linear gradient:

The only Gradient Thermal Cycler on the market to offer quad circuit technology which results in the most linear gradient on the market, with an amazing range of 30°C. Protocols can be optimized in a single experiment.

#### Touch Screen:

The TC-512 incorporates a large, 115 x 90mm, touch-sensitive screen that provides a unique user-friendly programming interface which is second to none.

#### Graphical display:

The unique 'real-time' graphical display shows the sample temperature profile while the program is running, including the upper and lower limits of the gradient. This pictorial, real-time representation means instant visualization of your experiment's status.

#### Memory cards:

Smart Media memory cards provide an alternative to internal memory storage of your programs, offering security and flexibility.

#### Gradient calculator:

The gradient calculator function displays the temperature of each column. This ensures replication of the experimental conditions.

#### High performance:

Each block consists of 8 peltier units, controlled by 4 independent temperature thermistors (control sensors) distributed evenly across the block. This ensures that the TC-512 exhibits the most accurately controlled linear gradient available\*.

#### 4-Fold control:

A maximum heating rate of 3°C/Sec and block uniformity of  $\leq \pm 0.4^\circ\text{C}$ . With or without a gradient.....no compromise!

#### Versatile block format:

The truly user-friendly interchangeable block system allows blocks to be interchanged in a matter of seconds without the need of any tools (60 x 0.5ml 96 x 0.2 ml, 3841 well, Insitu Block2).

## Technical Specification

### Blocks Formats

0.5ml capacity	60
0.2ml capacity	96
384-well block	Yes
Gradient block	0.5mL, 0.2 mL, 384
In-situ block	Yes
User interchangeable	Yes

### Block Temperature

Gradient range	20°C to 70°C
Maximum gradient	30°C (16°C for 384 block)
Maximum ramp rate*	3.0°C/sec
Block uniformity at 50°C*	$\leq \pm 0.3^\circ\text{C}$
Column uniformity with a 10°C	gradient $\leq \pm 0.3^\circ\text{C}$
Temperature range	4°C to 99°C
Temperature set point precision	0.1°C

### Heated Lid

Selectable heated lid temperature	100°C - 115°C
Heated lid enable/disable	Yes
Over temperature cut out	Yes
Regulated lid pressure	Yes
Heated lid only comes on if block is set above 35°C	

### Programming

Memory cards	Yes
Number of programs #	50 or 500 (with card)
Password protection	Yes
Programming	Touchscreen
Graphical display	Real-time graph
Incremental/decremental temperature	Yes
Incremental/decremental hold time	Yes
Maximum hold time	99 hrs
Minimum hold time	1 sec
Variable programmable ramp rate	0.1°C/sec steps
Run end time calculation	Yes
Pause and stop facility	Yes
End of program alarm (enable/disable)	Yes
Auto restart on power failure	Yes

### Miscellaneous

Serial port	RS232
Dual Voltage (120/230V)	Yes
Temperature sensor	Thermistor
Peltierelements/block	8
Dimensions L x W x H (mm)	420 x 220 x 260
Footprint L x W (mm)	420 x 220 (16.5" x 8.7" x 10")
Connection to PC control program	Yes
Free software upgrades from website	Yes
Power consumption	620 Watts
Frequency	50 - 60 Hz
Net weight	11kg (total)

Thank you for reading this data sheet.
