

Dräger X-plore® 3300/3500 Half Masks

Experience a new dimension of comfort and safety in respiratory protection: Dräger has worked together with users from industry and the skilled professions to develop a new line of twin-filter respirators. It very successfully combines practicality of use with comfort. The use of new materials coupled with a modern, attractive design guarantees maximum comfort and user acceptance.

ST-12849-2007

Wherever respiratory protection is needed, e.g. at chemical and steel plants, automobile and shipping industry, maintenance, utilities supply and disposal, Dräger X-plore® halfmasks can provide you a perfect solution.

Choose from either the low maintenance, economical Dräger X-plore® 3300 version or the very comfortable and robust Dräger X-plore 3500® version for long-term, demanding tasks.

Major features include the "FlexiFit" head-cradle, almost unnoticeable under a

safety helmet. The innovative X-guided strap-system distributes weight evenly and the „swept-back“ design allows for a perfect fit underwelding shields and visors.

Dräger X-plore half masks are available in three sizes, ensuring a great fit for different face types. Equipped with a safe and easy to use bayonet connection they are compatible with the extensive Dräger X-plore® filter range.

Discover the benefits of Dräger X-plore® for yourself.

FEATURES & BENEFITS

Easy and safe handling	High level of user safety.
"FlexiFit" head cradle	The new head cradle provides an excellent fit for any head, also under safety helmets.
„Low profile“ design	The swept-back design ensures an optimal field of vision and fits well und eine gute Passform für den Einsatz unter Schutzvisieren.
Strap System	Innovative X-guided strap system ensures an even weight distribution. Easy to adjust for a perfect fit.
Flexible nose section	Gives more secure seal in the most critical area. Great compatibility with safety glasses and goggles.
Bayonet connector	Easy and secure filter attachment. Both filters are inserted in a top-down direction.

Special for Dräger X-plore® 3500:

New material	Mask body made of "DrägerFlex" material: hypoallergenic, free of silicone, extremely comfortable, and excellent resistance.
"Drop Down" harness	By undoing the neck hook, the mask can be removed without removing e.g. a safety helmet. The inner mask faces the body and remains protected.
