

## PMR-30 platform rocker – fixed tilt

Compact but highly functional fixed-angle platform rocker in the Grant bio range, providing a smooth side to side rocking motion for gentle sample agitation in tubes, culture flasks, dishes and boxes.

- **Variable speed: 7.5 to 30 rpm**
- **Fixed 7° tilt angle**
- **Load up to 0.5 kg**
- **Continuous or timed operation, with automatic switch-off**

Reliable and extremely quiet motor produces regulated and reproducible rocking throughout the speed range

Compact, sturdy construction with a low profile and small footprint – fits neatly into the smallest workspace

Simple timer setting, with large easy-to-read LED display indicating clearly the time remaining

Smooth, non-slip mat supplied as standard – prevents vessels from slipping

Simple graduated speed setting – from 7.5 to 30 rpm

Select either continuous or timed operation – the integral electronic timer ensures accurate count-down for repeatability of time-sensitive incubations

Suitable for mixing applications in many different fields, with specific applications including: gel staining/destaining, washes, antibody staining, hybridisations, immuno precipitations, Southern blots, Western blots, *in situ*.

### Accessory options for PMR-30

**PDM** – Dimpled mat to prevent tubes from rolling around

**PTP-26** – Tube adaptor for 26 tubes up to 11 mm diameter
