

PLASTIKLOS

[Chemical Protective Clothing]

[Applications]

The protective clothing PLASTIKLOS is used as light chemical protective clothing against solid and liquid chemicals [splash protection]. If necessary, the protective clothing is supplemented by the protective gloves UNIPLAST or various respiratory protective devices.

The Neoprene-Plus coating on both sides provides wide ranging protection against a multitude of chemicals. The bright orange color signals from a distance that there is work at endangered work sites.

[Design and Functioning]

PLASTIKLOS is available as a single-piece [overall] or as a two-piece protective garment. Careful workmanship and an additional coating of the seams prevent ingress of chemicals.

The zipper is covered with a flap that is closed with Velcro fastening.

The overall is equipped with an adjustable hood.

The two-piece protective clothing PLASTIKLOS consists of jacket and bib-style trousers.

The long jacket with adjustable hood provides safe protection. The bib-style trousers cover the chest and it is well covered by the jacket so that the wearer's back remains covered also when bending over.

The width of the arms and legs can be adjusted with Velcro fastening on the overall as well as on the two-piece protective clothing.

PLASTIKLOS jacket and
bib-style trousers

PLASTIKLOS overall

[Features and Benefits]

- Broad protective performance against a multitude of chemicals
- Resistance against mechanical impact
- Signalization and good visibility through orange colored material
- Careful workmanship and additional coating of seams prevent penetration of chemicals

[Protective Classes According to EN 14605]

Abrasion resistance	Class 3
Stability to heat	Class 2
Flex cracking resistance	Class 6
Puncture resistance	Class 2
Tear resistance	Class 3
Tensile Strength	Class 6
Chemical Resistance Against Permeation	
Hydrochloric acid 37%	Class 6
Sulfuric Acid 65%	Class 6
Nitric acid	Class 5
Perchloric acid	Class 6

[Testing and Certification]

Tested according to EN 14605 and certified according to PPE Directive 89/686 EEC, Category 3, Type 4.
