

## V-Gard Systems

[ The safety helmets of choice ]

### V-Gard

- The popular V-Gard design in a High Density Polyethylene shell.
- Accepts the full range of MSA safety helmet accessories.
- Available in High Visibility fluorescent orange as well as the standard range of colours.
- A small size is also available.
- Certified to EN 397 and meeting optional requirements for electrical insulation and very low temperature.

### Super V-Gard II

- Premium Quality finish ABS moulded shell.
- Accepts the full range of MSA safety helmet accessories.
- High impact protection and chemical resistance.
- Superior fit and enhanced wearer comfort.
- Certified to EN 397 and meeting optional requirements for lateral deformation, electrical insulation, very low temperature.

### Linesman

- Peakless version of the premium quality Super V-Gard II.
- Accepts the full range of MSA safety helmet accessories.
- For use when unrestricted upward vision is important.
- Perfect for confined spaces, or any high level work.
- Fits very well under total encapsulating chemical suits.
- Certified to EN 397 and meeting optional requirements for lateral deformation, electrical insulation, very low temperature.

### Logo Service

- Helmet Logos quickly and effectively promote your corporate image.
- High quality, multi-coloured Logo printing service provided by MSA.
- Encourages wearer acceptance.
- Front, side or rear of helmet printing for high visual impact.

### Faceshields

- Moulded-in slot on all MSA helmets provides easy mounting of face shields. Compatible with all MSA SORDIN helmet mounted hearing protectors. Please ask for the respective leaflet.

### ThermalGard

- Lightweight and high strength helmet.
- Accepts the full range of MSA safety helmet accessories.
- Shell of glass-reinforced nylon.
- For use when elevated temperature capability is needed.
- Protects from impact hazards and low-voltage levels.
- Certified to EN 397 and meeting optional requirements for lateral deformation, very low temperatures and molten metal splash.

### Harnesses

- Fas-Trac harness with quick action ratchet wheel adjustment for ultimate in safety helmet comfort.
- Staz-On harness has a slide adjustment designed for added stability.

### Chinstraps

- Adjustable chinstraps, available in nylon webbing or elastic, add extra security when working at height or in high winds.

### Hearing Protection

MSA offers a wide range of passive and electronic helmet mounted ear muffs. Please ask for the MSA SORDIN hearing protection leaflet.

### Liners

- Designed to give extra protection during cold and wet weather.
- Perfect for workers in large refrigeration plants.
- Available in various materials and designs to suit all applications.
- Winter liners can be removed easily from the helmet for washing/drying.
- Also available in flame retardant material

### Neck Capes

Neck capes provide protection from:

- Wind and rain.
- Dust and debris.
- Liquid splash.
- Also available in flame resistant Nomex® material.

# MSA Safety Helmets are the Helmets of choice!

[ Make them your choice ]

The MSA V-Gard is worn by people on every continent of the globe and with a proven track record has become the helmet of choice for millions of workers all over the world. Whether you are in Buenos Aires, Argentina; Beijing, China; Sydney, Australia or Rome, Italy, you will always find the unmistakable silhouette of the MSA V-Gard on construction sites, power plants and factories wherever

workers need reliable head protection from falling objects. With experiences over many years in development and manufacturing of safety helmets and head/face protection systems, MSA has the ability to meet all your needs. Our programme of continuous development also means that we will continue to meet all your future needs, because we ask you.
