

## Interchange IV900PC, IV900PA Face Shields

### Technical Datasheet

#### Description

IV900PC and IV900PA - Interchange 900 series polycarbonate face shields, standard design with optional anti-fog properties (IV900PA).

#### Applications

The IV900PC and IV900PA face shields are suitable for general use in industry for protection of the eyes and face. Polycarbonate face shields give medium impact protection, protection against molten metal splash and their chemical resistance is most suitable against inorganic acids, inorganic solvents and other inorganic compounds. The IV900PC and IV900PA face shields have been designed to meet the requirements of EN166 for impact, liquid splash and molten metal splash.

#### Approval Information

|                     |             |
|---------------------|-------------|
| IV900PC Face Shield | EN166 1B39  |
| IV900PA Face Shield | EN166 1B39N |

#### Materials

#### Maintenance and Cleaning

Face shields should be inspected for deterioration or damage before each use. If the face shield has impaired visual properties or is otherwise damaged it should be discarded. Clean regularly using warm water and a mild detergent, pat or air dry.

#### Disposal

As the face shield is subject to dirt, dust and liquids etc., it cannot be recycled. Disassemble and dispose of as solid waste.
